Re: 2010 Wisconsin State Fair Centralized Beef Identification Sites

West Allis, Wis., November 1, 2009... Wisconsin State Fair Park officials have announced the locations and times for the 2010 market steer identification. All juniors wishing to exhibit market steers during the 2010 Wisconsin State Fair, August 5th – August 15th, are required to identify their steers at one of these centralized sites. This identification process allows officials to accurately identify steers through use of DNA testing. Wisconsin State Fair officials feel this system strengthens the security and integrity of the show, and its champions.

Beef Identification Guidelines:

- All junior exhibitors interested in exhibiting steers at the 2010 Wisconsin State Fair MUST identify them at one of the Wisconsin State Fair centralized identification sites.
- No intact males will be identified.
- On site steer identification will include:
 1. Issuing of official Wisconsin State Fair ear tag
 2. Collection of DNA sample for accurate identification
 3. Weight recording for performance class steers. ** Available at all sites from December 5th through February 6th.
- Exhibitors will be charged \$10.00 per steer to cover costs of identification.
- Identification forms are only available at the identification site and must be **completed** and **paid in full** before steer(s) will be identified.
- Identification does not replace or over-ride Wisconsin State Fair entry guidelines enforced by your local county extension office.
- Steers need to be identified in the exhibitor's name or immediate family name only (brother/sister). Steers cannot be cross identified in non-immediate family members' names. Breed steers do not need registration papers at the time of identification.

2010 Identification Sites:

Wisconsin State Fair Park (Badger Kick-off Classic)	Milwaukee December 5, 2009 9:00 am to 12:00pm 414.266.7050
