**JORDAN MACE**  
**Markesan, Wisconsin**  
**Entry# 5530529**

Brief Description : My project is made out of cherry lumbar that was sawed from trees we harvested from our property. I helped cut the trees down, took them to a sawmill and helped cut the boards, and then we stacked them outside, slatted the boards and covered with sheet metal to dry for a year. I love to work with my own lumbar.

Project Dimensions (Height x Length x Width): : 4x4x2 feet

Project Weight : 21+ lbs

County : Green Lake County  
Exhibitor Birthday : 12/10/2003

**10**
